8. Describe in detail what you are going to DO. It is good to plan more than one activity.

Incorrect - I will have to learned about blue prints, measuring skills, how to square things so they can have a nice watertight seal, so it don't ruin the tools. I will also learn how welding works and chemistry of how it works so well. I will study AC and DC power. The above would not be accepted because it contains glaring spelling and usage errors. It also does not specifically identify what activities the student will do. Correct- I will use an online blue print program to create 2 possible pick-up truck bed plans. I will create a spreadsheet and keep a budget estimate and expenditure ledger. I will learn how to make the pick-up bed perfectly square

9. Describe in detail how you will SHOW proof that the activity above was completed.

Incorrect - I will document all the things i have listed above with photos, notes and a jernal. The above has a glaring spelling error, the I is not capitalized, and it is not specific. Correct - I will provide a printed copy of the 2 blue prints. I will provide a printed copy of the spreadsheet ledger with all costs. I will provide photographs of me using tools to square the pick-up bed.
